Letter from the Shareholder Chair

Collaborating Locally to Compete Globally

Two years ago, the political and business leaders of our region came together with a shared belief that, by working together, we would see economic growth and success. By combining the best assets from each of our communities, we would create a compelling value proposition and, by telling our collective story together, it would be loud enough for the world to hear.

It is in this spirit that the 15 municipalities founded Edmonton Global.

The purpose of Edmonton Global is to radically transform and grow the economy of the Edmonton Metropolitan Region. We do this through attracting foreign direct investment, enticing international companies to locate here, and supporting local companies in doing business in the global economy.

The global economy is going through a major transformation driving demands in agri-business, energy, manufacturing, health, and technology. The Edmonton Metropolitan Region is well-positioned to meet those demands, but only if we work together. Join us in building the future Edmonton Metropolitan Region – what it looks like is up to all of us.

Sincerely,

STUART HOUSTON

Charting the Course

The Edmonton Metropolitan Region has a compelling and unique value proposition that is not only nationally distinctive – it's globally relevant. We don't want to be the next Silicon Valley, Singapore, or London. We want to build on what's uniquely us: an incredible quality of life, a welcoming and diverse community, core sector strengths and globally recognized expertise in artificial intelligence and machine learning, combined with our unparalleled access to global markets enabled by our region's integrated supply chain. After all, why try to be someone else when what's happening here can be the envy of the world?

Edmonton Global set out to do things differently, to learn from the best examples of economic development around the world, to use data and market intelligence, and to chart a unique course that is compelling to others.

The result: the creation of the Edmonton Metropolitan Region's first comprehensive economic development strategy: *The Edmonton Global Strategic Plan 2018-2023*.

Edmonton Global's Priorities 2018-2023

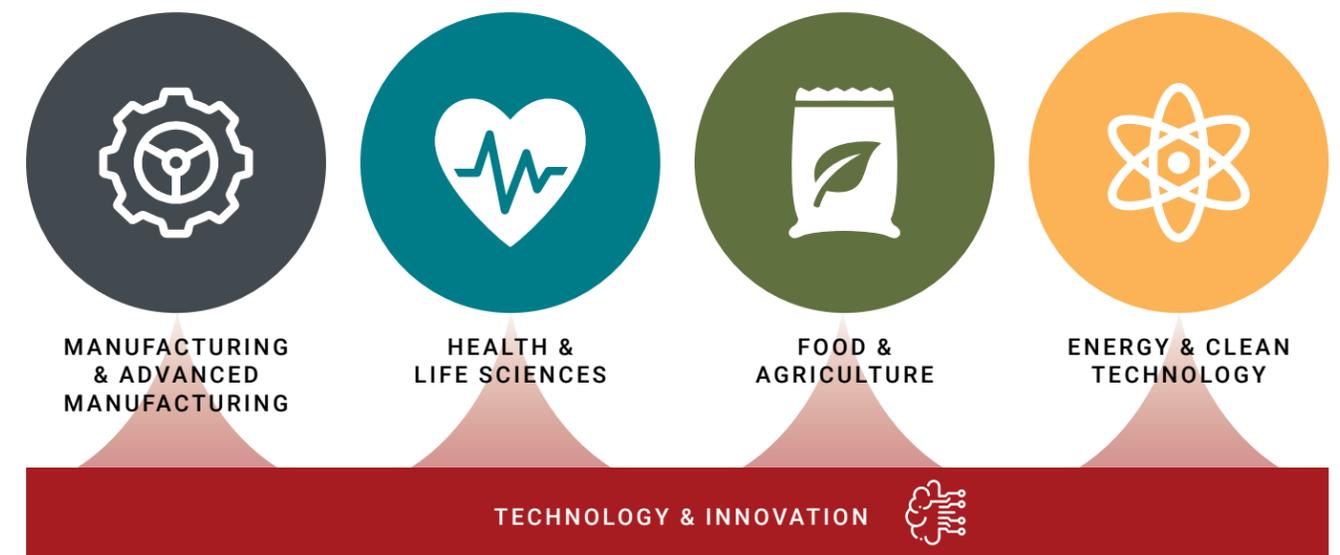

Focus

A successful foreign direct investment attraction and trade strategy starts with focus. Edmonton Global used a data-driven approach to identify sectors where the Edmonton Metropolitan Region has a clear competitive advantage and then benchmarked our competitiveness against other regions globally. Edmonton Global's strategy targets investment and trade opportunities based on our region's core strengths in energy and clean technology, health and life sciences, manufacturing and advanced manufacturing, and food and agriculture.

The Edmonton Metropolitan Region isn't at the centre of things – it's closer. One of our biggest strengths is our integrated supply chain, linking air, rail, and road networks under our Inland Port. Port Alberta capitalizes on our strengths in transportation, logistics and global connectedness through attributes of our Inland Port's Foreign Trade Zone.

When opportunities in these sectors are connected to our region's global strengths in technology and artificial intelligence – we can compete to win.

Focus Sectors

PRIORITY 1 – ACT AS A CATALYST FOR FOREIGN DIRECT INVESTMENT AND TRADE

OBJECTIVE: TO PURSUE FDI AND TRADE OPPORTUNITIES IN FOCUS SECTORS AND MARKETS WHERE GROWTH POTENTIAL EXISTS FOR THE EDMONTON METROPOLITAN REGION

BENCHMARKING THE EDMONTON METRO REGION GLOBALLY

CONFERENCE BOARD OF CANADA

Global Competitiveness

Competition for investment is fierce. To better understand the Edmonton Metropolitan Region's competitive position globally, Edmonton Global commissioned the Conference Board of Canada to compare our region with 21 other jurisdictions across the world in three categories: economy, competitiveness, and social.

The results showed we have some work to do, especially in the areas of economy and competitiveness.

Going Global, A Guide to Competing in a Globalized Economy

In the global race for investment, the Edmonton Metropolitan Region is being outpaced by lesser competitors because successive governments in Canada and Alberta have inherited 20th century policies, institutions and systems trying to compete in a 21st century global economy. Our governments need to be open to new thinking and new ways of doing things. We cannot afford complacency in this new economic era.

Edmonton Global worked closely with over 150 organizations across the region, including businesses, non-profit associations, and post-secondary institutions, to develop research-driven solutions to our competitiveness challenges. The outcome was a document called *Going Global, a guide to competing in a globalized economy*, which provides 20 recommendations across four themes that, when implemented, will help all Canadian communities and businesses compete to win in today's global economy.

ENGAGED WITH OVER **150** REGIONAL BUSINESSES AND ORGANIZATIONS

Foreign Direct Investment Action Plan

Based on research, market intelligence, and consultation with partners, Edmonton Global developed the Edmonton Metropolitan Region's first ever Foreign Direct Investment (FDI) Action Plan in August 2019. Implementation began immediately throughout the Fall and Winter of 2019 and Edmonton Global hosted several foreign investors and international site selectors with the support of partner organizations, municipalities, and businesses.

EXISTING FOREIGN INVESTORS

Strengthen awareness and relationships with International companies within the region who have a likelihood of additional investment.

FIRM LEVEL PROSPECTING

Focused targeting on international companies whose interests align and have the potential to unlock additional opportunity within a sector's value chain.

SITE SELECTOR STRATEGY

Develop data driven relationships with these key intermediaries working on behalf of international companies looking to expand internationally.

PARTNER NETWORK

Build strong and trusted relationships with Canada's and Alberta's international offices and staff working to increase investment into Canada.

2019 Inbound and Outbound Investment Attraction Activity

Site Selector Strategy

Site Selectors work directly with firms around the world looking to expand into new markets. While many of the world's largest firms have in-house expertise to help guide expansion plans, it is estimated that between 25 and 30 percent of international expansions work directly with a site selector. This represents tens of billions of dollars in investment each year. Raising the profile of the Edmonton Metropolitan Region among international Site Selectors will continue to be a major focus in 2020 and beyond.

25-30%
OF INTERNATIONAL EXPANSIONS WORK DIRECTLY WITH A SITE SELECTOR

Economic Developers Association of Canada (EDAC) National Conference

Three site selectors attended the Economic Developers Association of Canada (EDAC) national conference and were taken on an exclusive tour of the region. The 2019 annual conference was held in Edmonton thanks to advocacy efforts of municipal economic development officers from the region.

Canadian FDI Forum

In 2019, the Canadian Foreign Direct Investment (FDI) Forum was hosted in Edmonton and attracted nine national and international site selectors. Similar to the EDAC national conference, this event took place thanks to the leadership of municipal economic development officers from the region.

NAIT's Productivity and Innovation Centre (PIC) is scalable for commercializing projects and specialized equipment that enables companies to trial solutions at scale prior to implementing in the field.

"I had no idea all of this was happening in the Edmonton Region. I'm very glad I came."

– INTERNATIONAL SITE SELECTOR BASED IN ATLANTA

Partner Network

Building collaborative relationships with Canada's and Alberta's offices around the world are central to activating this network of partners. They are often the first point of access for companies around the world looking to expand. We know from experience that these teams can be powerful extensions of a community's outreach. In 2019, we worked closely with them to ensure they have the resources and knowledge to put the Edmonton Metropolitan Region in front of the world's investors.

"The Edmonton Metropolitan Region offers real and sustainable opportunities for Dutch agri-food companies to invest. Especially in sub sectors like vegetable protein and hemp processing. The visit of the Edmonton Global vice-president to the Netherlands contributed without doubt to the awareness of Dutch companies as was demonstrated during several company visits and management meetings."

– MR. ANTON GRAUMANS, CEO OF AGRIX

@KLGerritsGlobal - An incredible gathering of people working to make things happen on plant protein between Canada and the Netherlands. Thank you to the Consulate General of the Netherlands in Vancouver for making it happen!

"Your region is extremely well-represented, both by the enthusiastic and diligent work of [the] team at Edmonton Global, but also by the innovative work being done at the University of Alberta, TEC Edmonton, and the associated institutions. We were impressed also by the capabilities of Edmonton International Airport."

POLYKAR INVESTMENT IN THE EDMONTON METROPOLITAN REGION – A CASE STUDY IN SUCCESS

With the help and support of Edmonton Global, Polykar, a leading Canadian manufacturer of flexible packaging including polyethylene film, certified compostable bags, garbage bags, and food and industrial grade liners, made a final investment decision to construct a new state-of-the-art plant in the Edmonton Metropolitan Region.

This second facility will add significant production capacity (30 million pounds) to all of Polykar’s product lines and expand the company’s reach and expertise to serve the retail, commercial and institutional sectors across Western North America.

\$20M
INITIAL INVESTMENT
(\$10M FACILITY AND CONSTRUCTION, \$10M EQUIPMENT)

40
FULL-TIME
PERMANENT
JOBS

“This potential \$20 million total investment will not only create dozens of jobs during and after construction, but also keep more of the value added of local polyethylene production in Alberta.”

- TANYA FIR, MINISTER OF ECONOMIC DEVELOPMENT, TRADE AND TOURISM

“The development and current assets within the region, like those in Sturgeon County’s portion of Alberta’s Industrial Heartland are proof that the strength of our primary plastics and chemical manufacturing continue to drive growth. As a proud partner of Edmonton Global, we welcome Polykar and look forward to supporting, and helping them thrive in the region.”

- ALANNA HNATIW, MAYOR, STURGEON COUNTY

“Polykar will be a strong addition to the Edmonton Metropolitan Region’s manufacturing sector. This investment highlights the wealth of opportunity that exists here for companies looking to access talent and reach global markets. Our region is home to the entire advanced materials and plastics value chain.”

- DON IVESON, MAYOR, CITY OF EDMONTON

- 60,000 FT² BUILDING – WILL BE THE FIRST BUILDING IN THE NEWLY DEVELOPED REMINGTON DISCOVERY PARK IN SOUTH EDMONTON
- MAJORITY OF CONSTRUCTION LABOUR SOURCED LOCALLY
- COLLABORATION WITH NAIT AND OTHER TECHNICAL SCHOOLS ON PROCESS AND PRODUCTIVITY EFFICIENCIES
- A SIGNIFICANT AMOUNT OF CAPITAL AND OPERATIONS EXPENDITURES INCLUDING FEEDSTOCK IS EXPECTED TO STAY WITHIN THE PROVINCE
- A STATE-OF-THE-ART PRODUCTION FACILITY, WITH SIGNIFICANT AUTOMATION
- MAJORITY OF THE WORKFORCE WILL INCLUDE HIGHLY-SKILLED WORKERS INCLUDING ROBOTICS ENGINEERS

“This is an important milestone for Polykar and we look to the future with confidence as we continue to develop innovative and sustainable products. We are excited to finalize the plans for our new manufacturing facility in Edmonton in the coming months and bring ourselves closer to our valued suppliers and customers in Western Canada.”

- AMIR KARIM, PRESIDENT & CEO, POLYKAR

PRIORITY 2 – INCREASE AWARENESS AND IMPROVE PERCEPTIONS

OBJECTIVE: TO DEVELOP A REGIONAL BRAND FOR ECONOMIC DEVELOPMENT AND TELL THE STORY OF THE EDMONTON METROPOLITAN REGION IN CANADA AND AROUND THE WORLD

At Edmonton Global, we believe that when our region shares stories of opportunity, we are worthy of the world's attention. It's about collaborating locally to compete globally. Crafting a regional narrative and harmonizing our voices were critical first steps in 2019.

Crafting and Launching a Regional Narrative

In early 2019, Edmonton Global worked with an international company with expertise in economic development, site selection, global marketing, and media to help develop deeper understanding of the region's journey to increased prosperity. A survey was conducted with a group of international site selectors asking a number of questions about their perceptions of the Edmonton Metropolitan Region.

Eighty-two percent of respondents had never considered the Edmonton Metropolitan Region in a site selection process – not once. Those who had some awareness of our region, most associated us with "remote, cold, and oil & gas."

HAVE YOU EVER CONSIDERED THE EDMONTON METROPOLITAN REGION?

SITE SELECTOR SURVEY

Site selectors (an effective proxy for investment decision makers around the world)

These are people who spend their careers working directly with companies on finding the best places in the world to locate their next investment.

In researching existing awareness of our region, we've learned that the misconceptions of "cold, remote, and disconnected" aren't only held by people outside of Canada. Many business and government leaders across Canada also have very limited knowledge about the Edmonton Metropolitan Region.

Edmonton Global set out to change this with the creation of a new brand for Edmonton Global, a unified regional narrative, and platforms to showcase the region's value proposition to international audiences.

Collaboration, Focus, and Innovation – Building the Brand of Edmonton Global

The purpose of Edmonton Global is to radically transform and grow the economy of the Edmonton Metropolitan Region. This purpose statement is the core of our brand and represents the investment interests of the Edmonton Metropolitan Region. It serves to inspire involvement and motivate action.

Our mandate is clear – we exist to radically transform and grow the economy of the Edmonton Metropolitan Region by attracting foreign direct investment and supporting local companies trade and export with the world.

Young, Educated, Growing, Connected

The modern Edmonton Metropolitan region is Young, Educated, and Growing. And our northern location? It's a significant competitive advantage.

On June 20, 2019, a new regional narrative was launched to the world. It included a cohesive and compelling story about the Edmonton Metropolitan Region, its industries and economic assets, as well as a spotlight on the region's talent, innovation, and quality of life. Edmonton Global's new website includes regional datasets, tax and demographic data sets, and investor-focused information on our priority sectors.

Raising Awareness of the Edmonton Metropolitan Region and Our Priority Sectors

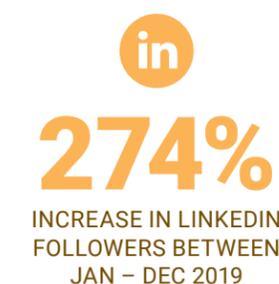

EdmontonGlobal.ca

During the launch of the regional narrative, edmontonglobal.ca went live to showcase detailed information on focus sectors, emerging industries, and data on the region in six languages.

Social Media

Activating Edmonton Global on social media platforms is an important part of building awareness and providing efficient channels for the messages to be spread around the world.

Monthly Global Briefing

Through a partnership with local digital publisher, Taproot, a monthly Global Briefing specifically targeting the international investment community, site selectors, and both Canada's and Alberta's international trade staff is curated and distributed each month. This highlights the economic activity across our region with a focus on our sector strategy.

PRIORITY 3 – LEVERAGE PARTNERSHIPS TO ENHANCE SUCCESS

OBJECTIVE: TO ALIGN WITH ECONOMIC DEVELOPMENT, INSTITUTIONAL AND BUSINESS PARTNERS TO ENABLE ECONOMIC DEVELOPMENT OPPORTUNITIES.

In order to radically transform the economy of the Edmonton Metropolitan Region, the region needed to radically transform its approach to economic development, which starts with collaboration. Our success is interconnected, and it will require the strength of many hands and the harmonization of voices to drive the kind of transformational growth our region seeks.

It is only through leveraging the will, support, and active involvement of the business community, schools and post-secondary institutions, professional and community organizations, and political and government partners that Edmonton Global will succeed in its mandate.

Edmonton Global worked in 2019 to activate these partnerships across the region and around the world.

Economic Development Network

The Economic Development Network is made up of economic development officers representing all Edmonton Metropolitan Region member municipalities and other economic development agencies and organizations who share the core belief that we can collaborate locally to compete globally.

In 2019, we collaboratively focused on:

1 PEER MENTORING/
BEST PRACTICE SHARING

2 TRAINING AND AWARENESS
(IMMIGRATION LAWS,
INDUSTRY VALUE
PROPOSITIONS, FDI,
COMMUNITY INSIGHTS, ETC.)

3 GENERATING THE
PRINCIPLES THAT
GUIDE INVOLVEMENT,
AND PROTOCOLS THAT
PROVIDE A FRAMEWORK
FOR COLLABORATION, LEAD-
SHARING, AND MOVING
FORWARD TOGETHER

In partnership with Edmonton International Airport (EIA) and the Province of Alberta's Ministry of Economic Development, Trade, and Tourism, Edmonton Global participated in an investor focused trip to Asia in the Fall of 2019. Two Inbound investor visits have since been confirmed later 2020 as a direct result of this trip to Asia and many others have occurred, with others in consideration for later 2020.

MOU signing with Canadian Chamber Pearl River Delta (CanCham PRD)

Partner meetings with Hong Kong AI

Hong Kong Investment Roundtable

CANCHAM Memorandum of Understanding (MOU)

Signing an MOU between Edmonton Global and Canadian Chamber Pearl River Delta (CanCham PRD) represents a step forward for greater involvement and opportunity for Edmonton Metropolitan Region and expansion of commerce and trade into new markets.

The CanCham PRD implements a model for business expansion that is more inclusive for Chinese companies and will provide greater networks for both Canadian companies looking to expand into the Pearl River Delta, as well as Chinese companies looking to expand into the Edmonton Metropolitan Region.

HKAI MOU

Through an MOU signed by Hong Kong AI (HKAI) and the Alberta Machine Intelligence Institute (AMII) in early 2019, this trip further increased collaboration between research and industry in Artificial Intelligence (AI) across both locations. The MOU enables expansion of companies in Hong Kong looking to partner with AMII and grow in Alberta and provides opportunities for Alberta AI companies to gain access to capital in Asia markets.

HKAI Lab is a non-profit platform for bringing together academics, scientists, and entrepreneurs in AI who are passionate about innovation and creating a better future.

Hong Kong Investment Roundtable

Edmonton Global gave a presentation to 30 investors from Hong Kong and across Asia focused on the current economic climate and investment opportunities in the Edmonton Metropolitan Region. The group's discussion of the Edmonton Metropolitan Region focused on:

- **Talent**
- **Continual growth and investment**
- **Sectors for investment: agriculture, tech, AI, research and development**
- **Regional value proposition**
- **Opportunities for partnership**
- **Visiting the Edmonton Metropolitan Region**

This event was hosted by Mr. Jeff Nankivell – Consul General of Canada in Hong Kong and Invest Alberta.

Building a Foundation for Collaboration

Edmonton Global has successfully instituted bilateral protocols with Health City and Alberta's Industrial Heartland Association (AIHA), and the model pioneered here is being adopted by others across Canada led by Invest in Canada and Consider Canada Cities Alliance (CCCA).

Edmonton Global's CEO, Malcolm Bruce, was appointed the 2020 Board Chair of CCCA in 2019 in part due to Edmonton Global's leadership on implementing protocols across the Edmonton Metropolitan Region and the desire that this could also be applied throughout CCCA.

11 INVESTOR VISITS HOSTED IN COLLABORATION WITH REGIONAL PARTNERS

Government Partnerships

As a member of Consider Canada City Alliance (CCCA), Edmonton Global is part of a pan-national collaboration between 13 of Canada's largest municipal regions to build a sustainable and globally competitive national economy built upon the collective strength of each member's ecosystem. The CCCA works with national and international networks of partners to make Canada the preferred location for foreign investment and trade. Through this collaboration, Edmonton Global was invited to participate in international investor-focused missions to Japan and South America.

The Province of Alberta and the Government of Alberta continue to be valued partners for the Edmonton Metropolitan Region and for Edmonton Global. Their continued financial support, especially in the foundational years, has been instrumental to its success.

PRIORITY 4 – STRIVE FOR ORGANIZATIONAL EXCELLENCE

OBJECTIVE: TO ESTABLISH EDMONTON GLOBAL AS A TOP-PERFORMING REGIONAL ECONOMIC DEVELOPMENT CORPORATION AND AN EMPLOYER OF CHOICE.

Edmonton Global's human resource and financial responsibility are paramount to the success of the organization and its ability to deliver its regional mandate. To solidify Edmonton Global's future and ensure efficient operations and long-term professional growth, a team of industry professionals with diverse expertise was formed in 2019. Provincial and federal funding was also secured, and a system of performance measurement and improvement was developed and implemented based on global best practices.

Our Board of Directors

“Every business in every sector across this region, whether in real estate, legal, banking, construction, manufacturing or even post-secondary, all have one thing in common: our success is interconnected. We need to be the architects of the kind of economic future we want for our community and stop waiting for someone else to take the lead. It’s time that government, non-profits, and businesses put our collective weight behind a common goal for the benefit of us all. Edmonton Global is the vehicle – each of us are the fuel.”
